A diagram illustrating addition. At the top, there are two separate boxes, each followed by an equals sign. A horizontal line with arrows at both ends connects the bottom of the first box to the bottom of the second box, forming a bracket-like shape that spans the width of the plus sign between them.

$$\begin{array}{c} = \\ \boxed{\phantom{0}} \end{array} + \begin{array}{c} = \\ \boxed{\phantom{0}} \end{array}$$

A diagram illustrating a subtraction problem:

$$14 - 2 = 5$$

Below the equation, a plus sign ( $+$ ) is centered between two groups of boxes. Each group contains a box with a dot ( $\cdot$ ).

$$\begin{array}{c} = \\ \boxed{\phantom{0}} \end{array} + \begin{array}{c} = \\ \boxed{\phantom{0}} \end{array}$$

A diagram illustrating a mathematical operation. At the top, there are two empty boxes, each followed by an equals sign. A plus sign is positioned between them. Below the plus sign, two arrows point downwards towards a single empty box at the bottom center.
